3' Roller Slide

Model View

Description

The 3' Roller Slide is a fun, inclusive play activity for children of all abilities. It provides distinctive developmental and play benefits such as enhanced balance and coordination. For children with sensory processing issues, the Roller Slide provides a calming sensory experience and can be incorporated into an occupational therapy protocol. Constructed entirely of steel and aluminum, it's also an ideal option when designing a playground for children with cochlear implants.

Features & Benefits

- Fun, inclusive play activity for children of all abilities
- 65 precision-milled rollers with sealed bearings for a smooth, pinch-free ride
- Rounded, smooth side rails are designed to make children feel comfortable and secure
