Caterpillar Crawl Tube - Freestanding

Model View

Description

Crawl tubes provide children with a fun way to explore and discover a play area. Our Caterpillar Crawl Tube is ideally suited for younger children (ages 2-5) with built in porthole windows that double as handholds. Children enter the tube at either side and climb or crawl up and through to the other side. Includes horseshoe supports.

Features & Benefits

- Encourages imaginative play, as well as exploration and discovery
- Porthole windows create effective sight lines for children and adults to see one another and double as handholds
- Caterpillar arch design promotes active play and adds an extra element of fun
- Crawl Tube available in any of our plastic colors
