Hex Pod

Model View

Description

Hex pod is a versatile addition to any playground. It can acts as a seat and be arranged in a set with other hex pods or stand alone so children can retreat from the noise and activity until they are ready to engage in play again. It can also be used with other hex pods as balance steps to functionally link play elements and enhance a child's coordination. It is made of rotomolded plastic with a textured surface for additional support while climbing.

Features & Benefits

- Versatile addition to any playground
- Promotes balance and coordination development
- Develops leg and core strength
