RockScape® Lightning Climber

Model View

Description

Lightning Climber has an undulating Lightning Bolt-shaped center section to create a climbing experience with a little more challenge than a standard upright climber. Children have to weave through the angled rails to traverse from one side to the other.

Features & Benefits

- Helps children develop balance and coordination skills
- Unique "lightning bolt" design creates a challenging climbing experience
- Can be used as part of a RockScape climbing area or as a link on a PowerScape play system
- Includes metal climber and all necessary installation hardware
