Triton

Model View

Description

The Triton is a fun and challenging functional link for children ages 5 to 12. It features three suspended pods that are tethered upright and enhances a child's decision-making and gross motor skills during play. Children can crawl up or down the tunnel to explore an attached play area.

Features & Benefits

- Rotationally-molded plastic pods sway slightly as children crawl through from one end to the other
- Designed to enhance a child's decision-making and gross motor skills during play
- Constructed of durable, recyclable materials and backed by the industry's leading warranty
- Versatile addition to any Xscape play system
- Support rungs sold separately, three required
