

A PLAYCORE Company

Sensory Wave® Climber Ground Level Transfer

Model View

Description

The Sensory Wave Climber™ is the industry's first playground climber that allows children of all abilities to enjoy the benefits of climbing while enhancing sensory development. Strategically placed molded-in grips, hand holds and transfer area provide additional support for children of all abilities to maneuver through the climber. With a wide array of auditory, visual and tactile sensors, you can create a sensory-rich freestanding or play system experience for all. *This features auditory sensors with adaptive switch capability.*

Features & Benefits

- Add one of our GT Sensors™ packages to create a unique sensory play experience
- Features auditory sensors with adaptive switch capability
- Available in five freestanding configurations
- Can be used as a ground to deck attachment or deck-to-deck link
- Constructed of durable, recyclable materials and backed by the industry's leading warranty
- Sensor packages sold separately....
